

NEW INSURANCE BENEFIT FOR IAAI MEMBERS!

A \$10,000.00 Accidental Death and Dismemberment policy now covers all current and newly active, associate and life members of the International Association of Arson Investigators effective August 1, 2010. The coverage is effective immediately when someone becomes a member of IAAI. A copy of the policy is available on the website under the “members only” section.

This member benefit is added to other membership benefits including a subscription to *Fire & Arson Investigator* magazine, access to an archive of articles on fire and arson investigation, major discounts on IAAI training classes, merchandise, fees for the CFI and FIT professional credentials, and registration at the IAAI Annual Training Conference. For more details on the benefits of IAAI membership visit the member benefit page on the website.

Additional information on the insurance program will be sent to all members through the mail in September. Maintaining the insurance simply requires a current active or associate membership in the International Association of Arson Investigators.
